

SUMMARY

Entry-Level DevOps Engineer with hands-on experience in Linux, Git, GitHub Actions, Jenkins, Docker, Kubernetes, Terraform, AWS, and CI/CD automation. Experienced in building containerized applications, automating software delivery pipelines, provisioning infrastructure using Terraform, and deploying applications on Kubernetes. Passionate about cloud computing, DevOps practices, and continuous learning.

EDUCATION

Bachelor of Computer Applications (BCA)

Seshadripuram Academy of Business Studies

2022 - 2025

CGPA: 7.92/10

Senior Secondary (XII)

Janaseva Independent PU College

2020 - 2022

84%

Secondary (X)

Websters High School

2019 - 2020

76%

WORK EXPERIENCE

DevOps Intern [\[Certificate\]](#)

Elevate Labs

Bengaluru, Karnataka

Nov 2025 - Dec 2025

- Built CI/CD pipelines using GitHub Actions and Jenkins.
- Containerized Node.js applications using Docker.
- Deployed applications to Kubernetes using Minikube.
- Managed source code using Git branching, Pull Requests, and version control.
- Automated build and deployment workflows following DevOps best practices.

Web Development Intern [\[Certificate\]](#)

Zidio

Bengaluru, Karnataka

Jan 2025 - Mar 2025

- Developed responsive web applications using React.js and Node.js.
- Built REST APIs and integrated frontend with backend services.
- Used Git for version control and collaborated using Agile development practices.
- Improved debugging, problem-solving, and software development skills.

TRAININGS/COURSES

DevOps Training [\[Certificate\]](#)

Livotech

Bengaluru, Karnataka

Sep 2025 - Jan 2026

- Hands-on training in Linux administration.
- Worked with Git and GitHub for version control.
- Built CI/CD pipelines using GitHub Actions and Jenkins.
- Containerized applications using Docker.
- Deployed applications using Kubernetes.
- Provisioned infrastructure using Terraform.
- Learned AWS cloud fundamentals and DevOps best practices.

PROJECTS

End-to-End DevOps CI/CD Pipeline

2025

- Developed a Node.js application and managed source code using Git.
- Automated build and deployment using GitHub Actions and Jenkins.
- Containerized the application using Docker.
- Provisioned infrastructure using Terraform.
- Deployed the application to Kubernetes (Minikube).
- Implemented monitoring using Netdata.
- Built an end-to-end CI/CD workflow from code commit to deployment.

Technologies: Git • GitHub Actions • Jenkins • Docker • Kubernetes • Terraform • Linux • Netdata • Node.js

AI Powered E-Learning Web App

2024

- Developed a full-stack AI-powered e-learning platform.
- Implemented student and teacher role-based authentication.
- Added AI video summarization and chat functionality.
- Built responsive dashboards using React.js and Node.js.

Technologies: React.js • Node.js • JavaScript • HTML • CSS • REST API

SKILLS

DevOps

GitHub

Jenkins

Containers

Kubernetes

Cloud

Cloud Computing

Terraform

Linux (Ubuntu)

Python

Node.js

TCP/IP

HTTPS

SSH

Git

GitHub Actions

CI/CD

Docker

Minikube

AWS

Infrastructure as Code

Operating Systems

Programming

Bash

Networking

HTTP

DNS

CERTIFICATIONS

DevOps Internship

Elevate Labs

Hands-on experience building automated software delivery pipelines, containerizing applications, provisioning cloud resources, and deploying on Kubernetes clusters.

Web Development Internship

Zidio

Developed responsive frontend interfaces with React, built secure RESTful APIs with Node.js, and implemented database integrations.
